About **Company**

OniX is a global research hub that connects innovators, investors and partners to bring technologies to market faster for positive impact in our communities.

OniX accepts ideas from a wide spectrum of research areas, including: Health Sciences, Biotechnology, Medical Devices, Engineering, Agriculture, Energy, Space, Transportation, Climate Change, Food and Nutrition, Farming, Fisheries, Social Sciences, Public Health, Artificial Intelligence, Software/ Hardware, and others.

What is **OniX**

OniX is a **partnering and intelligence hub with advanced analytics** where researchers and entrepreneurs position their ideas for enhanced funding, partnering, licensing and recognition. **Industry, private foundations/charities, VC, PE, family offices and other private funders access the hub to engage with people, technology and ideas of interest.**

How does **OniX** position **research organizations for success?**

The entire research effort including awarded and unfunded grant abstracts, intramurally supported projects, patents and technology transfer summaries are aggregated as ideas. These ideas are profiled alongside relevant publications, patents, clinical trials and news to provide investors, funders and partners a thorough assessment of each idea and a landscape for each area/target of interest.

Competitive Intelligence/
Asset Evaluation

ONLINE IDEAS EXCHANGES HUB:

THE GLOBAL HUB "CONNECTING IDEAS TO OPPORTUNITIES"

OniX INCLUDES (AS OF 6/1/19)

- 400K+ Ideas/Assets
- 30M Publications
- 100K Researchers
- 50+ Countries
- 2K+ Universities
- 75K+ Startups/(Bio)tech
- 20K Tech Transfer Assets

WE ARE ADDING (SOON)

- 500K+ Ideas/Assets
- 70M+ Publications
- 100M+ Patents
- 1B+ Research News
- 300K+ Clinical Trials
- 40K+ Tech Transfer Assets

IDEAS/ASSETS (WILL) INCLUDE

- Submitted Grant Applications To:
 - Government Agencies
 - Foundations
 - Industry
- Unfunded Grant Applications
- Intramural Funded Projects
- Accelerators/Incubators Tech Summaries
- Research Park Startups
- Tech Transfer Assets
- Funded Grant Applications
- Other Startups
- Biotech/Tech Companies
- Industry/Pharma Assets

COMING IN 2019

- OniX Request for Applications Portal
- OniX Entrepreneurs and Executives Platform
- Industry Profiles

For Universities and Other Research Organizations

OniX partners with universities, research parks, incubators/accelerators to facilitate the submission of ideas from their researchers/startups. We work with universities' offices of technology transfer, sponsored project, economic development, VP of Research, Innovation, and post-doctoral fellow to announce OniX.

OniX collaborates with universities by:

- Working with them to introduce the program
- To advance internal processes to protect the university's IP

UNIVERSITIES RESEARCH INVENTORY OF IDEAS

- Submitted Grants Applications
- Intramural Funding Projects
- Accelerators/Incubators
- Startups/Biotech
- Tech Transfer Projects
- Post-doctoral Fellow
- New Investigators
- I-Corps
- New Ideas

OniX SUPPORTS UNIVERSITIES TO:

1. Find partners to accelerate their industry relevant research
2. Drive entrepreneurship at University research parks, accelerators and startups (see also E&E platform)
3. Target advanced projects for VC funding
4. Target projects for innovative intramural funding
5. Achieve a detailed view of their entire university research portfolio
6. Promote funding submissions to additional funding sources (see also RFA portal)

PUBLICLY AVAILABLE RESEARCH INVENTORY

- Funded Grants
- Patents
- Research News
- Publications
- Clinical Trials
- Conferences Abstracts

The OniX Value to Industry Users

Industry will be equipped to access the global dataset for ideas/assets that align with their portfolio interests or for ideas that are transformational. OniX works with industry members to support their external innovation, business development, competitive intelligence and R&D efforts. OniX, in partnership with industry, will introduce more advanced analytics to provide insight on emerging ideas of interest, ideas' patentability, an innovation index, and technical and regulatory challenges/success. OniX serves as an extension of industry's efforts to de-risk and accelerate technologies to market.
