About OniX

Online Ideas Exchange Hub (OniX) aggregates data from the global research enterprise of universities, not-for-profit research organizations and industry to facilitate partnerships. OniX seeks to accelerate the path of ideas/assets from discovery to market with a global research Intelligence hub to (1) de-risk and accelerate R&D, (2) identify new targets and new potential uses for existing drug candidates, (3) identify Business Development opportunities (earlier than current venues), (4) facilitate External Innovation Partnering, and (5) provide access to KOLs.

OniX's headquarters is located in New York City with additional offices in Washington DC, and soon London, Brussels and Tokyo.

Altum's Proposal Central - the industry-leading research administration platform

ProposalCentral Community

We're Creating a Community.

With over 435,000 users around the world, ProposalCentral is the gold standard for research grantmaking - familiar and easy-to-use for researchers, peer reviewers, and administrators. Ease-of-use and minimal training provides more time for actionable results.

About Altum

Altum is a software company driven towards the advancement of research. ProposalCentral is a Cloud-based grants management platform designed to empower funders, connect the research community, and extend the impact of grant-making long beyond the award. Altum believes that research is most effective when it's powered by a community. Altum shares an ambitious vision and an open mind-set, and their organization and platform are designed to foster true collaboration and partnerships.

Altum's headquarters is located in Reston, Virginia.
